Informatii suplimentare:

¹ **Schema responsabila de protectia depozitului dumneavoastra.** Depozitul dvs este acoperit de o schema statutara de garantare a depozitelor oficial recunoscuta pe teritoriul Romaniei.

Additional information:

¹ **Scheme responsible for your deposit's protection.** Your deposit is covered by a statutory deposit guarantee scheme, officially recognized in Romania.

² **Plafonul general de acoperire.** In cazul in care un depozit este indisponibil deoarece o institutie de credit nu este in masura sa isi indeplineasca obligatiile de plata conform conditiilor contractuale si legale aplicabile, plata compensatiilor catre deponenti se face de catre schema de garantare a depozitelor. Fiecare compensatie are un plafon maxim stabilit la echivalentul in lei al sumei de 100.000 EUR per institutie de credit. Acest lucru inseamna ca toate depozitele de la aceeasi institutie de credit sunt agregate pentru determinarea incadrarii in plafonul de acoperire. De exemplu, daca un deponent detine un cont de economii in valoare de 90.000 EUR si un cont curent in care are 20.000 EUR, acesta va primi doar echivalentul in lei al sumei de 100.000 EUR.

Depozitele constituite de persoane fizice rezultand din (i) tranzactii imobiliare referitoare la bunuri imobile cu destinatie locativa, (ii) evenimentul pensionarii, disponibilizarii, din situatia de invaliditate sau deces al deponentului si (iii) incasarea unor indemnizatii de asigurare sau a unor compensatii pentru daune rezultate din infractiuni sau pentru condamnari pe nedrept, sunt acoperite peste echivalentul in lei al sumei de 100.000 EUR, pentru o perioada de 12 luni de la data la care suma a fost creditata in cont la Banca sau de la data la care depozitele pot fi transferate legal la o alta institutie de credit. Informatii suplimentare sunt disponibile la www.fgdb.ro.

³ **Plafonul de acoperire aplicabil conturilor comune.** In cazul conturilor comune, plafonul de acoperire stabilit la echivalentul in lei al sumei de 100.000 EUR se aplica fiecarui deponent. Depozitele intr-un cont ai carui beneficiari sunt doua sau mai multe persoane in calitatea lor de membri ai unei asociatii lucrate, asocieri sau grupari de aceeasi natura, fara personalitate juridica, sunt agregate si tratate ca si cand ar fi fost plasate de un singur deponent, pentru calculul limitei de 100.000 EUR.

⁴ **Plata compensatiilor.** Schema de garantare a depozitelor responsabila este Fondul de Garantare a Depozitelor in Sistemul Bancar, cu sediul in Str. Negru Voda nr. 3, corp A3, et. 2, Bucuresti, cod: 030774, telefon 021-3266020, adresa e-mail comunicare@fgdb.ro, www.fgdb.ro. Aceasta va pune la dispozitie compensatiile convenite (pana la echivalentul in lei al sumei de 100.000 EUR) in termen de 7 zile lucratoare de la data la care depozitele au devenit indisponibile.

Daca nu v-a fost pusa la dispozitie compensatia in acest termen, va recomandam sa contactati schema de garantare a depozitelor, intrucat termenul in care puteti pretinde plata compensatiei poate fi limitat. Informatii suplimentare sunt disponibile la www.fgdb.ro.

² **General cap amount.** In case a deposit is unavailable because a credit institution is in default according to the applicable contractual and legal conditions, the compensation payment towards the depositors is performed through the deposit guarantee scheme. Each compensation has a cap amount established at the RON equivalent of EUR 100,000 per credit institution. This means that all the deposits from the same credit institution are aggregated in order to determine the coverage level. For example, if a depositor has a savings account of EUR 90,000 and a current account of EUR 20,000, such depositor will only receive the RON equivalent of EUR 100,000.

Deposits established by legal persons resulting from (i) real estate transactions regarding residential properties with housing destination, (ii) retirement, dismissal, invalidity or death of the depositor and (iii) collecting insurance benefits and compensations for damages resulting from crimes or wrongful convictions are covered above the RON equivalent of EUR 100,000, for a 12-month period from the date the amount was credited into the account at the Bank or the date when the deposits can be legally transferred to another credit institution. Additional information is available on www.fgdb.ro.

³ **The cap amount applicable to the joint accounts.** In the case of joint accounts, the cap amount established for the RON equivalent of EUR 100,000 is applied to each depositor. The deposits in an account whose beneficiary are two or more persons in their position as members of labour associations, associations or groups of the same kind, without legal personality, are aggregated and treated as if they were placed by a single depositor, for the cap amount calculation of EUR 100,000.
