For purposes of this § 5 (1) "**Affiliate**" means a company controlling, controlled by, or under common control with, the Issuer, provided that the term "controlled" ("*controllate*") shall have the meaning ascribed

to it in Section 93 of the Consolidated Law on Financial Intermediation and the terms "controlling" and "common control" shall be interpreted accordingly.

(2) *Notice*: Any such substitution shall be notified in accordance with § 6 of the General Conditions.

(3) *References*: In the event of any such substitution, any reference in these Terms and Conditions to the Issuer shall be deemed to refer to the New Issuer. Any

(3) *Variation of the Terms and Conditions of the Securities:* If at any time a MREL Disqualification Event occurs, and/or in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, without any consent or approval of the Security Holders, at any time vary these Terms and Conditions in such a way that the Securities remain or, as appropriate, become, Qualifying Securities (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Security Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). (b) are listed on a recognised stock exchange if the Securities were listed immediately prior to such Variation.

(4) For avoidance of doubt, any Variation pursuant to § 9 (3) of the General Conditions is subject to compliance by the Issuer with any conditions prescribed by the MREL Requirements at the relevant time, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority.

(b) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that its own funds and eligible liabilities would, following such call, redemption, repayment or repurchase (as applicable), exceed the requirements of own funds and eligible liabilities laid down in the CRR and in Directives 2013/36/EU and 2014/59/EU by a margin that the competent resolution authority, in agreement with the competent authority, considers necessary; or

§ 3

Redemption

Redemption: The Securities shall be redeemed upon automatic exercise on the Exercise Date by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

The Securities shall be deemed automatically exercised on the Exercise Date.

§ 4

Redemption Amount

Redemption Amount: The Redemption Amount corresponds to the Minimum Amount.

§ 5

Issuer's Conversion Right

Issuer's Conversion Right: Upon the occurrence of a Conversion Event the Securities shall be redeemed at the Settlement Amount on the Final Payment Date.

The "**Settlement Amount**" shall be the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event; it shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the first Banking Day before the conversion becomes effective: the price of the Underlying, the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. However, the Settlement Amount shall not be less than the Minimum Amount. If it is not possible to determine the market value of the Securities, the Settlement Amount corresponds to the Minimum Amount. The Settlement Amount shall be notified pursuant to § 6 of the General Conditions.

The right for payment of any Additional Conditional Amount (m) ceases to exist in relation to all Additional Conditional Amount Payment Dates (m) following the occurrence of a Conversion Event.

The Settlement Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

(1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.

(2) *Business day convention:* If a Payment Date is not a Banking Day then the Following Business Day Convention shall apply. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.

(3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.

(4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

(1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

(2) *Discretional valuation*: Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in these Terms and Conditions. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 9th Banking Day.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in these Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, New Index Sponsor and New Index Calculation Agent, Replacement Specification, Notifications

(1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

(2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measure in accordance with paragraph (1) above:

Replacement of the Underlying: In the case of an Index Replacement Event, the Calculation Agent may replace the Underlying with a Replacement Underlying and if necessary redefine the Adjustable Product Data. As a "**Replacement Underlying**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the index (e.g. dividends) and, if applicable, fees and costs included in the index. If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (5) below), every reference to the Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

(3) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in these Terms and Conditions shall be deemed to refer to the New Index Sponsor.

If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in these Terms and Conditions shall be deemed to refer to the New Index Calculation Agent.

(4) *Replacement Specification:* If a published price of the Underlying as required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish it pursuant to § 6 of the General Conditions the respective value by using the Corrected Value (the "**Replacement Specification**") .

(5) *Notifications*: All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Security Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

§ 9

(1) The Securities may be early redeemed at any time in whole but not in part, at the option of the Issuer, upon the occurrence of the MREL Disqualification Event, but subject to compliance with the then applicable MREL Requirements (including, without limitation, the conditions set out in § 11 (3) of the General Conditions), upon not more than 60 days' nor less than 30 days' prior notice of such early redemption, at their Optional Redemption Amount, in accordance with the MREL Requirements.

"**MREL Disqualification Event**" means that, at any time, all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of such Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities as a result of such Securities being purchased by or on behalf of the Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.

(2) The Optional Redemption Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.

(3) Any notice in accordance with this paragraph (3) shall be given by a notice in accordance with § 6 of the General Conditions. It shall be irrevocable, must specify the date fixed for redemption and must set forth a statement that the redemption is made in accordance with this § 9.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

***Risks associated with the UniCredit Group's activities in different geographical areas*:** Despite the Group's business being materially connected to Italy and, therefore, to the state of its economy (Italy accounted for approximately 45% of the Group's revenues in 1Q26, computed as sum of Italy, Germany, Austria, Central & Eastern Europe and Russia) the UniCredit Group is also present in Germany (accounting for approximately 23% of the Group's revenues in 1Q26), in Austria (accounting for approximately 10% of the Group's revenues in 1Q26), in Central & Eastern Europe (accounting for approximately 19% in 1Q26 and covering Czech Republic and Slovakia, Hungary, Slovenia, Croatia, Bulgaria, Romania, Bosnia & Herzegovina and Serbia). UniCredit also has marginal activities in Russia (accounting for approximately 4% of the Group's revenues in 1Q26). The exposure to which has been reduced (including over FY25), since the start of the Ukrainian crisis. The UniCredit Group's geographical spread will also continue to expose it to risks and uncertainties of a varying nature and magnitude affecting each of the various countries in which it operates and which could be more complex in relation to countries outside the European Union. Central and Eastern European countries in particular have historically experienced volatile capital and foreign exchange markets, often coupled with political, economic and financial instability (at present potentially increased due to the Ukrainian crisis). The evolution of the geopolitical landscape remains under continuous monitoring by UniCredit, with current factors including recent and constantly evolving U.S. trade policy decisions, that could have potential implications on global trade relationships both with upsides (e.g. new trade partnerships) and downsides (e.g. impact on export/import) as possible outcomes. This area is at the early stage of evolution and potential impacts, if any, on UniCredit's primary geographies will be duly taken into account as part of the normal processes of the risk management framework. At the date of the Registration Document, the Issuer's presence in Russia exposes it to the specific risks connected to the ongoing Ukrainian crisis. Such risk exposure also requires the

Issuer to constantly employ a significant amount of resources for the dynamic management of risks and ongoing assessment of the possible effects of the geopolitical crisis, while maintaining an overall prudent and sustainable approach to distributions. With regard to the assets and liabilities of Russian subsidiaries, the Group holds investments in Russia mainly through AO UniCredit Bank and its subsidiary OOO UniCredit Leasing.
The line-by-line consolidation determined the recognition of total assets for Euro 6,048 million vs. Euro 5,597 million as of 31 December 2024. The increase in total assets is mainly attributable to the appreciation of Ruble vs Euro compared to 31 December 2024 which more than offsets the decrease in total asset in local currency.
As at December 31 2025, the revaluation reserves, whose treatment envisages the recycling through P&L in case of derecognition of the associated assets and liabilities, are equal to Euro -2,729 million mainly arising from the foreign exchange revaluation reserve resulting from the conversion of assets and liabilities of these companies in EUR; the positive delta for Euro 592 million vs. year-end 2024 (Euro -3,321 million), is mainly due the appreciation of the Russian Ruble over the period.
As of 31 December 2025, the loss of control over AO UniCredit Bank would determine the derecognition of net assets having a carrying value of Euro 6,703 million (also embedding the negative revaluation reserves), with a correspondent negative effect through P&L, in case the events leading to the derecognition would not envisage cash-in receivables; under a regulatory perspective over CET1 capital, the negative effect related to the revaluation Reserves (Euro -2,729 million) is basically neutral since it is already considered according to its nature and sign (also taking into account regulatory filters).

Credit risk and risk of credit quality deterioration: The financial and capital strength, as well as the profitability of the UniCredit Group also depend on the creditworthiness of its customers. An unexpected change in the creditworthiness of a counterparty exposes the Group to the risk of a change in the value of the associated credit exposure, requiring it to be partially or totally written down. Such credit risk is inherent in, and material to, the traditional activity of providing credit. As at March 31, 2026, the value of the UniCredit Group's non-performing exposures ("**NPEs**") was equal to Euro 11.9 billion (with a gross NPE ratio of 2.6%), stable Y/Y; the stock of NPE loan loss provisions ("**LLPs**") was equal to Euro 5.5 billion with a coverage ratio of 46%. As at March 31, 2026, the Group's net NPEs stood at Euro 6.5 billion. The UniCredit Group's CoR stood at 17 bps in the first quarter 2026 and Group's overlays on performing exposures was approximately Euro 1.7 billion. The UniCredit Group is also exposed to the non-traditional counterparty credit risk arising in the context of negotiations of derivative contracts and repurchase transactions (repos) on a wide range of products if a counterparty becomes unable to fulfil its obligations towards the UniCredit Group.

Risks associated with the exposure of the UniCredit Group to sovereign debt: The book value of sovereign debt securities exposures of the UniCredit Group as at March 31, 2026 amounted to Euro 133,266 million (Euro 132,977 million as at December 31, 2025) of which over 73% is concentrated in eight countries: Italy (Euro 46,778 million), Spain (Euro 17,160 million), France (Euro 9,164 million), Germany (Euro 8,295 million), Czech Republic (Euro 4,729 million), Austria (Euro 4,543 million), Bulgaria (Euro 3,504 million) and Romania (Euro 3,488 million). Worsening of the spread between the return on government bonds and risk-free benchmark rates, downgrading of a sovereign entity's rating might impact negatively the value of UniCredit's securities portfolio and may be detrimental to the capital position and operating results of the Issuer, although there were no indications of defaults over the course of 2026. The Group's sovereign debt exposure to Russia (Euro 479 million, as of March 31, 2026) is almost totally held by the Russian controlled bank in local currency and classified in the banking book.
In addition to the exposures to sovereign debt securities, loans given to central and local governments and governmental bodies must be taken into account, amounting to Euro 28,033 million as at March 31, 2026 (as at 31 December 2025 it amounted to Euro 28,261 million).

***Liquidity risk*:** The UniCredit Group is and will be exposed to the possibility of being unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The liquidity risks specific to the activities of UniCredit concern funding/market liquidity and mismatch/contingency risks. As of March 31, 2026, the Liquidity Coverage Ratio ("**LCR**") of the UniCredit Group was equal to 141% whereas at March 31, 2025 it was equal to 143% (calculated as the average of the 12 latest end of month ratios). The LCR as of March 31, 2026 was at c. 140%. As of March 31, 2026, the Net Stable Funding Ratio ("**NSFR**") was 124% whereas at December 31, 2025 it was equal to 125%. The Loan to Deposit Ratio as of March 31, 2026 was at ca. 87%.

Risks associated with capital adequacy requirements: Following the results of the SREP 2025, capital requirements to be met by UniCredit involve a P2R at 200 bps (minimum of 1.13% as CET1 capital and 1.50% as Tier 1 capital), a leverage ratio P2R (P2R-LR) of zero and no additional liquidity requirements. As of January 1, 2026, UniCredit is required to meet: (i) OCR at 10.20% in terms of CET1 ratio, at 12.08% in terms of Tier 1 ratio and 14.58% in terms of Total Capital ratio based on the Systemic Risk Buffer and Countercyclical Capital Buffer as of March 31, 2026 which are updated on a quarterly basis, and (ii) OLRR at 3% on a consolidated basis. As of March 31, 2026, consolidated CET1 Capital, Tier 1 and Total Capital ratios were equal to, respectively: 14.19%, 16.18% and 18.79%, while the LRE was 5.17%. All in all, the outcome of the 2025 SREP as summarized by the P2R is in line with previous years' assessment, and there are no other impacts stemming from that relating to 2025. Furthermore, following the communication received by the SRB and the Bank of Italy in April 2026, UniCredit is required to comply, on a consolidated basis, with: (i) MREL requirement equal to 22.67% of RWAs – plus the applicable Combined Buffer Requirement (the "**CBR**") – and 6% for Leverage Ratio Exposures ("**LRE**"); and subordinated MREL (*i.e.*, to be met with subordinated instruments) equal to 14.36% of RWAs plus the applicable CBR – and 6% for the LRE.

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (for example, an Index Replacement Event (for example the calculation or publication of the Underlying is indefinitely or permanently discontinued) has occurred and no suitable Replacement Underlying is available or can be determined) (the "**Conversion Event**") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Early redemption at the option of the Issuer: The Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving notice to the Paying Agent and the Security Holders, if the Issuer determines that all or part of the series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements (MREL Disqualification Event).

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law))

pari passu with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 22 December 2026 on the following multilateral trading facilities (MTF): Freiverkehr der Börse Stuttgart (*Regulated Unofficial Market of the Stuttgart Stock Exchange*)

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to sell the Securities at a specific time or for a specific price. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the Issue Price or the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder. If the currency of the country where you purchase this product or the account to which payments on the product are credited differs from the currency of the product, be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies.

Risks arising from missing ongoing payments: Any Additional Conditional Amount (m) will only be payable if an Additional Conditional Amount Payment Event (m) occurs with respect to an Additional Conditional Amount Observation Date (m). If an Additional Conditional Amount Payment Event (m) does not occur, the Security Holder is not entitled to receive the respective Additional Conditional Amount (m). There is the risk, that in case of an unfavourable performance of the Underlying no payment of any Additional Conditional Amount (m) may occur.

Risks related to the regulation of benchmarks: The Securities make reference to a Benchmark (the "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 (the "**Benchmark Regulation**") and therefore there is a risk that the Benchmark may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, converted or otherwise impacted. Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities.

Risks related to indices: The performance of Securities linked to indices depends on the performance of the respective index. Changes in the price of the components of the index and changes to the composition of the index or other factors may have an adverse effect on the performance of the index.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Care sunt principalele riscuri specifice emitentului?

Investitorii potențiali trebuie să fie conștienți că, în cazul materializării unuia dintre factorii de risc menționați mai jos, valorile mobiliare pot scădea în valoare, iar aceștia pot suferi o pierdere totală a investiției. Următoarele riscuri reprezintă riscuri esențiale specifice emitentului:

Riscuri asociate activităților Grupului UniCredit în diferite zone geografice: Deși activitatea Grupului este legată în mod semnificativ de Italia și, prin urmare, de starea economiei acesteia (Italia a reprezentat aproximativ 45% din veniturile Grupului în T1 2026, calculate ca sumă a Italiei, Germaniei, Austriei, Europei Centrale și de Est și Rusiei), Grupul UniCredit este, de asemenea, prezent în Germania (reprezentând aproximativ 23% din veniturile Grupului în T1 2026), în Austria (reprezentând aproximativ 10% din veniturile Grupului în T1 2026), în Europa Centrală și de Est (reprezentând aproximativ 19% din veniturile Grupului în T1 2026 și acoperind Republica Cehă și Slovacia, Ungaria, Slovenia, Croația, Bulgaria, România, Bosnia și Herțegovina și Serbia). UniCredit are, de asemenea, activități marginale în Rusia (reprezentând aproximativ 4% din veniturile Grupului în T1 2026). Expunerea aferentă acestor activități a fost redusă (inclusiv pe parcursul exercițiului financiar 2025), începând cu declanșarea crizei din Ucraina. Extinderea distribuției geografice a Grupului UniCredit va continua să îl expună la riscuri și incertitudini de natură și amploare variabilă, aferente fiecărei țări în care activează, acestea putând fi mai complexe în cazul țărilor din afara Uniunii Europene. Țările din Europa Centrală și de Est au înregistrat istoric piețe de capital și cursuri valutare volatile, adesea însoțite de instabilitate politică, economică și financiară (instabilitate potențial accentuată în prezent de criza din Ucraina). Evoluția contextului geopolitic este monitorizată constant de UniCredit, iar factorii actuali includ deciziile recente și în continuă schimbare privind politicile comerciale ale SUA, care pot avea implicații asupra relațiilor comerciale globale, cu potențiale consecințe atât pozitive (de ex.,

parteneriate comerciale noi), cât și negative (de ex., impact asupra exporturilor/importurilor). Această zonă se află într-un stadiu incipient de evoluție, iar eventualele efecte asupra principalelor regiuni geografice în care operează UniCredit vor fi integrate, după caz, în procesele curente ale cadrului de gestionare a riscurilor. La data întocmirii documentului de înregistrare, prezența emitentului în Rusia generează o expunere directă la riscurile asociate crizei din Ucraina. Această expunere la risc implică, de asemenea, utilizarea continuă de către emitent a unui volum semnificativ de resurse pentru gestionarea dinamică a riscurilor și evaluarea continuă a posibilelor efecte ale crizei geopolitice, menținând în același timp o abordare generală prudentă și sustenabilă în ceea ce privește distribuțiile. În ceea ce privește activele și pasivele filialelor din Rusia, Grupul deține investiții în Rusia în principal prin AO UniCredit Bank și prin filiala sa OOO UniCredit Leasing.
Consolidarea linie cu linie a determinat recunoașterea unor active totale în valoare de 6.048 milioane euro, față de 5.597 milioane euro la 31 decembrie 2024. Creșterea activelor totale poate fi atribuită în principal aprecierii rublei față de euro comparativ cu 31 decembrie 2024, care compensează mai mult decât scăderea activelor totale în moneda locală.
La data de 31 decembrie 2025, rezervele din reevaluare, al căror tratament prevede reciclarea prin contul de profit și pierdere (P&L) în cazul derecunoașterii activelor și pasivelor asociate, sunt egale cu -2.729 milioane euro, provenind în principal din rezerva de reevaluare din diferențe de curs valutar rezultată din conversia în euro a activelor și pasivelor acestor societăți; variația pozitivă de 592 milioane euro față de sfârșitul anului 2024 (-3.321 milioane euro) se datorează în principal aprecierii rublei rusești în perioada respectivă.
La data de 31 decembrie 2025, pierderea controlului asupra AO UniCredit Bank ar determina derecunoașterea activelor nete având o valoare contabilă de 6.703 milioane euro (incluzând, de asemenea, rezervele negative din reevaluare), cu un efect negativ corespunzător în contul de profit și pierdere (P&L) în cazul în care evenimentele care conduc la derecunoaștere nu ar prevedea încasări în numerar; din perspectiva reglementară asupra capitalului CET1, efectul negativ aferent rezervelor din reevaluare (-2.729 milioane euro) este, în esență, neutru, întrucât este deja luat în considerare în funcție de natura și semnul său (ținând seama, de asemenea, de filtrele de reglementare).

Risc de credit și risc de deteriorare a calității creditului: Soliditatea financiară și de capital, precum și profitabilitatea Grupului UniCredit depind, de asemenea, de bonitatea clienților săi. O schimbare neașteptată a bonității unui partener contractual expune Grupul la riscul de modificare a valorii expunerii de credit asociate, fiind necesară ajustarea parțială sau integrală a acesteia. Acest tip de risc de credit este inerent și semnificativ în activitatea tradițională de acordare de credite. La 31 martie 2026, valoarea expunerilor neperformante („**NPE**") ale grupului UniCredit era de 11,9 miliarde euro (cu o rată brută a NPE de 2,6%), stabilă de la un an la altul; stocul provizioanelor pentru pierderi din credite aferente NPE („**LLP**") era de 5,5 miliarde euro, cu o rată de acoperire de 46%. La 31 martie 2026, NPE-urile nete ale grupului se situau la 6,5 miliarde euro. Rata costului riscurilor (CoR) a Grupului UniCredit s-a situat la 17 puncte de bază în primul trimestru al anului 2026, iar supraprovizioanele Grupului pentru expunerile performante au fost de aproximativ 1,7 miliarde euro. Grupul UniCredit este expus și la riscul de credit față de parteneri contractuali non-tradiționali care poate apărea în contextul negocierii de contracte derivate și al tranzacțiilor repo (vânzare cu răscumpărare) pentru o gamă largă de produse, în situația în care partenerul contractual nu își mai poate îndeplini obligațiile față de Grupul UniCredit.

Riscuri asociate expunerii Grupului UniCredit la datoria suverană: Valoarea contabilă a expunerilor Grupului UniCredit la titluri de datorie suverană la 31 martie 2026 se ridica la 133.266 milioane euro (132.977 milioane euro la 31 decembrie 2025), din care peste 73% era concentrată în opt țări: Italia (46.778 milioane euro), Spania (17.160 milioane euro), Franța (9.164 milioane euro), Germania (8.295 milioane euro), Republica Cehă (4.729 milioane euro), Austria (4.543 milioane euro), Bulgaria (3.504 milioane euro) și România (3.488 milioane euro). O deteriorare a diferențialului (spread) dintre randamentul obligațiunilor guvernamentale și ratele de referință fără risc, precum și retrogradarea ratingului unei entități suverane pot afecta negativ valoarea portofoliului de titluri de valoare al UniCredit și pot avea un impact negativ asupra poziției de capital și a rezultatelor operaționale ale emitentului, chiar dacă pe parcursul anului 2026 nu au existat indicii de neplată. Expunerea grupului la datoria suverană în Rusia (479 milioane euro la 31 martie 2026) este deținută aproape în totalitate de banca controlată de statul rus, în monedă locală, și este clasificată în portofoliul bancar.
Pe lângă expunerile la titluri de datorie suverană, trebuie avute în vedere și împrumuturile acordate guvernelor centrale și locale și instituțiilor publice, care se ridicau la 28.033 milioane euro la 31 martie 2026 (la 31 decembrie 2025 acestea se ridicau la 28.261 milioane euro).

***Risc de lichiditate*:** Grupul UniCredit este și va rămâne expus riscului de a nu-și putea îndeplini obligațiile de plată și livrare în numerar, prezente și viitoare, anticipate sau neprevăzute, fără a afecta activitatea sa zilnică sau poziția sa financiară. Riscurile de lichiditate specifice activității UniCredit vizează lichiditatea de finanțare/de piață și riscurile de nepotrivire/contingență. La 31 martie 2026, indicatorul de acoperire a necesarului de lichiditate („**LCR**") al Grupului UniCredit era de 141%, în timp ce la 31 martie 2025 acesta era de 143% (calculat ca media ultimelor 12 valori lunare de sfârșit de lună). Indicatorul LCR la 31 martie 2026 era de aproximativ 140%. La 31 martie 2026, indicatorul de finanțare stabilă netă („**NSFR**") era de 124%, în timp ce la 31 decembrie 2025 acesta era de 125%. Raportul credite/depozite la 31 martie 2026 era de aproximativ 87%.

Riscuri asociate cerințelor privind adecvarea capitalului: Ca urmare a rezultatelor SREP 2025, cerințele de capital care trebuie respectate de UniCredit includ un P2R de 200 puncte de bază (minimum 1,13% drept capital CET1 și 1,50% drept capital de nivel 1 (Tier 1)), un raport de levier P2R (P2R-LR) egal cu zero și nicio cerință suplimentară de lichiditate. Începând cu 1 ianuarie 2026, UniCredit trebuie să respecte: (i) un OCR de 10,20% în termeni de rată CET1, de 12,08% în termeni de rată Tier 1 și de 14,58% în termeni de rată a capitalului total, pe baza amortizorului de risc sistemic și a amortizorului de capital anticiclic la 31 martie 2026, care sunt actualizate trimestrial, și (ii) un OLRR de 3% la nivel consolidat. La 31 martie 2026, ratele consolidate CET1, Tier 1 și ale capitalului total erau, respectiv, de 14,19%, 16,18% și 18,79%, în timp ce LRE era de 5,17%. Per ansamblu, rezultatul evaluării SREP 2025, rezumat prin P2R, este în concordanță cu evaluările din anii anteriori și nu implică alte impacturi în legătură cu anul 2025. De asemenea, în urma comunicării primite din partea SRB și a Băncii Italiei în aprilie 2026, UniCredit trebuie să respecte, la nivel consolidat: (i) o cerință MREL egală cu 22,67% din RWA – plus cerința amortizorului combinat („**CBR**") aplicabilă – și 6% pentru expunerile aferente ratei de levier („**LRE**"); și o cerință MREL subordonată (*adică* de îndeplinit prin instrumente subordonate) egală cu 14,36% din RWA plus CBR-ul aplicabil – și 6% pentru LRE.

Secțiunea 3 – Informații esențiale despre valorile mobiliare

Care sunt principalele caracteristici ale valorilor mobiliare?

Tipul produsului, activul suport și forma valorilor mobiliare

Tipul produsului: Valori mobiliare Cash Collect cu protecție (Non-Quanto)

Activ suport: EURO STOXX® Select Dividend 30 (Price) Index (EUR) (ISIN: CH0020751589 / preț de referință: prețul de închidere)

Valorile mobiliarele sunt reglementate de legislația italiană. Valorile mobiliarele sunt instrumente de datorie în formă dematerializată, înregistrată, în conformitate cu Legea consolidată italiană privind intermedierea financiară (Testo Unico della Finanza). Valorile mobiliare vor fi reprezentate prin înscrieri în cont și înregistrate în registrele Sistemului de compensare și decontare. Transferul valorilor mobiliare se realizează prin înregistrarea în conturile relevante deschise în Sistemul de compensare și decontare. Numărul internațional de identificare a valorilor mobiliare (ISIN) pentru valorile mobiliare este prevăzut în Secțiunea 1.

Emitere și termen

Valorile mobiliare vor fi emise la data de 22.12.2026 în Euro (EUR) („**Moneda specificată**") sub forma a până la 10.000 de certificate. Valorile mobiliare au un termen definit.

Generalități

Valoarea valorilor mobiliare pe durata termenului acestora depinde în principal de prețul activului suport. În principiu, valoarea valorilor mobiliare crește dacă prețul activului suport crește, și scade dacă prețul activului suport scade.

Dobândă

Valorile mobiliare nu sunt purtătoare de dobândă.

Sumă suplimentară condiționată (*Cupon*)

Cu condiția să nu fi avut loc niciun eveniment de conversie, deținătorul valorilor mobiliare va primi o sumă suplimentară condiționată (*Cupon*), sub rezerva următoarelor condiții:

- Dacă, în ceea ce privește o dată de observare pentru suma suplimentară condiționată (*Cupon*) (m), a avut loc un eveniment de plată a sumei suplimentare condiționate (*Cupon*), suma suplimentară condiționată (*Cupon*) (m) corespunzătoare va fi plătită la data de plată a sumei suplimentare condiționate (*Cupon*) (m) corespunzătoare.
- Dacă, în ceea ce privește o dată de observare pentru suma suplimentară condiționată (*Cupon*) (m), nu a avut loc un eveniment de plată a sumei suplimentare condiționate (*Cupon*), suma suplimentară condiționată (*Cupon*) (m) corespunzătoare nu va fi plătită.

Un eveniment de plată a sumei suplimentare condiționate (*Cupon*) are loc dacă valoarea R (m) respectivă este egală sau mai mare decât nivelul corespunzător de plată a sumei suplimentare condiționate (*Cupon*) (m).

Nivelul de plată a sumei suplimentare condiționate (*Cupon*) (m) înseamnă factorul de plată a sumei suplimentare condiționate (*Cupon*) (m) înmulțit cu R (inițial).

R (m) înseamnă, în ceea ce privește suma suplimentară condiționată (*Cupon*), prețul de referință la data de observare corespunzătoare a sumei suplimentare condiționate (*Cupon*) (m).

Factorul de plată a sumei suplimentare condiționate (*Cupon*) (m):	100% (1)
Suma suplimentară condiționată (*Cupon*) (m):	EUR 290 (1)
Data de plată a sumei suplimentare condiționate (*Cupon*) (m):	22.12.2031 (1)
Data de observare a sumei suplimentare condiționate (*Cupon*) (m):	15.12.2031 (1)
Data de înregistrare (*Cupon*) (m):	19.12.2031 (1)

Rambursare

Cu condiția să nu fi avut loc niciun eveniment de conversie, valorile mobiliare vor fi rambursate la data plății finale la valoarea de rambursare în urma exercitării automate.

La data plății finale, valoarea de rambursare este egală cu suma minimă.

Definiții suplimentare și termeni ai produsului

R (inițial) înseamnă prețul de referință la data inițială de observare.

Suma de calcul:	EUR 1.000
Data plății finale:	22.12.2031
Data inițială de observare:	18.12.2026
Sumă minimă:	EUR 1.000
Valoare de rambursare opțională:	Sumă de calcul

Conversia valorilor mobiliare de către emitent: La apariția unuia sau mai multor evenimente de conversie (de exemplu, un eveniment de înlocuire a indicelui (de exemplu, calculul sau publicarea activului suport este întreruptă pe termen nedeterminat sau permanent) și nu este disponibil sau nu poate fi determinat un activ suport de înlocuire adecvat) („**Evenimentul de conversie**"), emitentul poate converti valorile mobiliare și le poate rambursa la data plății finale prin plata sumei de decontare. „**Suma de decontare**" reprezintă valoarea de piață a valorilor mobiliare, inclusiv dobânda acumulată pentru perioada până la data plății finale, la rata dobânzii de piață tranzacționată la acel moment pentru obligațiile emitentului cu aceeași scadență rămasă ca valorile mobiliare, în termen de zece zile bancare de la apariția evenimentului de conversie, astfel cum este determinată de agentul de calcul. Suma de decontare nu va fi în niciun caz mai mică decât suma minimă.

Rambursare anticipată la opțiunea emitentului: Valorile mobiliare pot fi rambursate în orice moment, în întregime, dar nu parțial, la opțiunea emitentului, la valoarea de rambursare opțională, la sau după data specificată într-un anunț publicat pe website-ul emitentului sau prin notificare transmisă agentului de plată și deținătorilor de valori mobiliare, dacă emitentul stabilește că toate sau o parte dintre seriile de valori mobiliare sunt sau vor fi excluse, integral sau parțial, din categoria pasivelor eligibile disponibile pentru a îndeplini cerințele MREL (eveniment de descalificare MREL).

Ajustări ale termenilor și condițiilor: Agentul de calcul poate ajusta termenii și condițiile valorilor mobiliare dacă apare un eveniment de ajustare (de exemplu, o anumită modificare a conceptului indicelui relevant) („**Evenimentul de ajustare**").

Statutul valorilor mobiliare: Obligațiile emitentului în temeiul valorilor mobiliare constituie obligații directe, necondiționate, nesubordonate și negarantate ale emitentului, având același rang (sub rezerva oricăror obligații preferențiale prevăzute de legea aplicabilă (inclusiv cele rezultate din instrumentele de recapitalizare internă implementate în temeiul legislației italiene)) pari passu cu toate celelalte obligații negarantate (altele decât obligațiile cu rang inferior obligațiunilor senior emise periodic (inclusiv obligațiuni senior nepreferențiale și orice alte obligații care, potrivit legii, au un rang inferior obligațiunilor senior emise ulterior datei emiterii), dacă este cazul) ale emitentului, prezente și viitoare, iar în cazul obligațiunilor senior, pari passu și proporțional, fără nicio preferință între acestea.

Unde vor fi tranzacționate valorile mobiliare?

Admitere la tranzacționare: Nu a fost depusă nicio cerere pentru admiterea valorilor mobiliare la tranzacționare pe o piață reglementată.

Listare: Se va depune o cerere de tranzacționare, cu efect de la 22.12.2026, pe următoarele sisteme multilaterale de tranzacționare (MTF): Freiverkehr der Börse Stuttgart (*Piața neoficială reglementată a Bursei din Stuttgart*)

Care sunt principalele riscuri specifice valorilor mobiliare?

Riscul de credit al emitentului și riscurile legate de măsuri de rezoluție aplicabile emitentului: Valorile mobiliare constituie obligații negarantate ale emitentului față de deținătorii valorilor mobiliare. Orice persoană care achiziționează valorile mobiliare se bazează pe bonitatea emitentului și nu are, în legătură cu poziția sa în cadrul valorilor mobiliare, drepturi sau creanțe față de nicio altă persoană. Deținătorii valorilor mobiliare sunt expuși riscului unei neexecutări parțiale sau totale de către emitent a obligațiilor asumate în temeiul valorilor mobiliare, de exemplu în cazul insolvenței emitentului. Cu cât bonitatea emitentului este mai redusă, cu atât riscul de pierdere este mai ridicat. În cazul materializării riscului de credit, deținătorul valorilor mobiliare poate suferi pierderea totală a capitalului, chiar dacă valorile mobiliare prevăd o sumă minimă la scadență. În plus, deținătorii valorilor mobiliare pot fi supuși unor măsuri de rezoluție în cazul în care emitentul este în dificultate sau este probabil să intre în dificultate. Obligațiile emitentului în temeiul valorilor mobiliare nu sunt garantate, nu sunt garantate de terți și nu sunt protejate de niciun sistem de garantare a depozitelor sau de compensare.

Riscuri legate de factori care influențează valoarea de piață: Deținătorii valorilor mobiliare suportă riscul ca prețul de piață al valorilor mobiliare să fie supus unor fluctuații semnificative pe durata termenului valorilor mobiliare și că deținătorul valorilor mobiliare nu este în măsură să vândă valorile mobiliare la un anumit moment sau la un anumit preț. Valoarea de piață a valorilor mobiliare, precum și sumele plătibile în temeiul valorilor mobiliare depind în principal de prețul activului suport. Totuși, valoarea de piață a valorilor mobiliare va fi influențată de o serie de factori suplimentari. Aceștia includ, printre altele, bonitatea emitentului, ratele dobânzilor și randamentelor relevante aplicabile, piața pentru valori mobiliare similare, condițiile economice, politice și ciclice generale, lichiditatea tranzacționării și, dacă este cazul, durata rămasă a valorilor mobiliare, precum și factori suplimentari care influențează valoarea de piață și care sunt legați de activul suport.

Riscuri legate de valoarea de rambursare: Valorile mobiliare vor fi rambursate la scadență la valoarea de rambursare. Valoarea de rambursare poate fi mai mică decât prețul de emisiune sau decât prețul de achiziție. Aceasta înseamnă că deținătorul valorilor mobiliare obține un randament numai dacă valoarea de rambursare depășește prețul individual de achiziție al deținătorului valorilor mobiliare. Dacă moneda țării în care achiziționați acest produs sau contul în care sunt creditate plățile aferente produsului diferă de moneda produsului, trebuie să aveți în vedere riscul valutar. Veți primi plăți într-o monedă diferită, astfel încât randamentul final pe care îl veți obține depinde de cursul de schimb dintre cele două monede.

Riscuri generate de absența plăților periodice: Orice sumă suplimentară condiționată (m) va fi plătibilă numai dacă are loc un eveniment de plată a sumei suplimentare condiționate (m) în raport cu o dată de observare a sumei suplimentare condiționate (m). Dacă nu are loc un eveniment de plată a sumei suplimentare condiționate (m), deținătorul de valori mobiliare nu are dreptul să primească suma suplimentară condiționată respectivă (m). Există riscul ca, în cazul unei evoluții nefavorabile a activului suport, să nu aibă loc nicio plată a niciunei sume suplimentare condiționate (m).

Riscuri legate de reglementarea indicatorilor de referință: Valorile mobiliare fac trimitere la un indicator de referință („**Benchmark**") în sensul Regulamentului (UE) 2016/1011 („**Regulamentul privind indicatorii de referință**") și, prin urmare, există riscul ca acest indicator de referință să nu mai poată fi utilizat ca valoare de referință pentru valorile mobiliare de la un anumit moment. Într-o astfel de situație, valorile mobiliare ar putea fi retrase de la cotare, ajustate, convertite sau afectate în alt mod. Orice modificări aduse unui indicator de referință ca urmare a Regulamentului privind indicatorii de referință ar putea avea un efect negativ semnificativ asupra costurilor de refinanțare a unui indicator de referință sau asupra costurilor și riscurilor administrării sau participării la stabilirea unui indicator de referință și respectării Regulamentului privind indicatorii de referință. Investitorii potențiali trebuie să fie conștienți că există riscul ca orice modificări ale indicatorului de referință relevant să aibă un efect negativ semnificativ asupra valorii și asupra sumelor plătibile în temeiul valorilor mobiliare.

Riscuri legate de indici: Performanța valorilor mobiliare legate de indici depinde de performanța indicelui respectiv. Modificările prețului componentelor indicelui și modificările compoziției indicelui sau alți factori pot avea un efect negativ asupra performanței indicelui.

Riscuri legate de potențiale conflicte de interese: Pot apărea conflicte de interese în legătură cu emitentul relevant sau cu persoanele cărora li s-a încredințat oferta, ceea ce poate duce la o decizie în dezavantajul deținătorului valorilor mobiliare.
