

HEALTH ASSISTANCE

Doctor Chat

- **Quick assistance** from friendly doctors
- Micro - **unlimited consultations** with **Accredited Doctors**
- Available in the **most popular messaging applications** (WhatsApp, Viber, Telegram, SMS, etc.)
- **Unlimited 24/7 access** to a wide network of qualified doctors
- **Reliable** Information and Tips
- Customer support with limited access to healthcare.
- Help to make **informed decisions** in times of uncertainty.

I have a fever of 38 this morning. I'm very worried. Should I go to the emergency room?

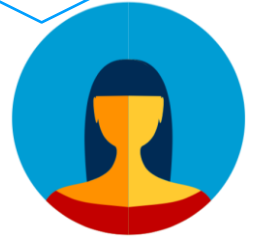

Help with medical decisions

I suffer from asthma and use an inhaler. Am I in a higher risk category? Should I take extra precautions?

Information and Encouragement

My eye is red and inflamed (as seen in the photo). I'm afraid to go to the clinic now. Can I be treated at home?

Avoid unnecessary consultations

Doctors usually respond in **5 minutes or less.**

70% of consultations lead to avoiding a trip in person to the doctor

1. Send a question to Abi, the virtual assistant Dr. Chat.

2. We use Artificial Intelligence to send your question to a specialist.

3. In a few minutes, you will receive an answer from your doctor.
