The Client shall bear any appropriate penalties, in accordance with the specific Agreement or according to the amount applied by the Bank and displayed at its offices or communicated to the Client when opening an account. In the case of the unauthorized overdraft, penalty interest is calculated for each day of non-payment of the amount owed constituted in the unauthorized overdraft and is posted on the Client's account on the last working day of the current month. The balance thus created and unpaid at the end of the month attracts new penalty interest charges until they are paid in full.

4.6 The Bank is authorised by the Client to compensate automatically, at any time, the amounts owed to the Bank according to the Agreement, with the funds available in any account opened with the Bank, regardless of the currency of the account, without any notification of prior formality and, in case of compensation between the accounts with different currencies, to perform the foreign exchange according to the exchange rate of the Bank in the respective day.

4.7 The Bank is entitled to debit the Client's accounts with the amounts representing taxes and/or duties related to the operations/documents ordered/received from/for the Client. Should this not be possible, the Bank is entitled to discontinue the operation and return the documents. All costs covered by the bank, including without being limited to judicial and extra-judicial expenses, in case it is involved in a litigation with the Client and/or between the Client and a third party, will be recovered from the Client.

The Card delivery address may be any branch of the Bank, the Client's domicile or residence address or another delivery address chosen by the Client, according to the option expressed by the latter in the request to open a contractual relationship, with subsequent amendments. The Client may benefit from the delivery of the cards to a delivery address other than the domicile or residence, if the telephone number declared in the relationship with the Bank is a mobile phone number registered with mobile operators in Romania. In the event that the mentioned telephone number is a landline/international telephone number,

the Card will be delivered to a specific branch communicated to the Client by the Bank. The delivery of the cards will be made only on the territory of Romania to the delivery address, except in the case where the delivery address is outside the territorial delivery coverage area. More details regarding the territorial delivery coverage are available on www.unicredit.ro. In case of unsuccessful delivery of the Card, it may be collected by the Client within 90 (ninety) days from the issuance of the Card from the Return Branch indicated in the Request for Opening a Contractual Relationship, with subsequent amendments or, in the absence thereof, from a specific branch communicated to the Client by the Bank. In case of requesting a change in the Card delivery address through the Info Center, Mobile Banking service or through any branch of the Bank, the address thus communicated to the Bank will be considered the new delivery address, until the date of a new request to change the delivery address, if applicable. The card can be picked up from the branch by a person with disabilities under the conditions and methods presented in section 2.26, except for the e-mail flow, which is not applicable.

5.4 Debiting. **a)** Debiting the Client's accounts with the value of transactions made with the card and the fees related to them, shall be within maximum 30 days from the date of transaction and the value of card transactions will be debited from the attached account. **b)** The Bank is entitled to debit automatically the accounts of the Client with the amount of the respective transactions and in case the Client made transactions via the phone/e-mail (MOTO) which involved the card or used the card number in a way that did not generate a receipt, but involved the account in the respective transaction.

5.5 Recurring transaction. (1) The recurring transaction is a transaction performed as a result of the authorisation given by the Client directly to the retailer, by filling in the form on its website or by other means, in order to debit the accounts enclosed to the card on particular periods, for the payment of particular goods or services according to the authorisation of the retailer.

(2) For recurring transactions, the Client has the following obligations: **(i)** in case of replacement of the card regardless of reason, notify the retailer with regard to the data related to the new card so that the recurring transaction is not interrupted, the Client being the only one responsible for the recurring transactions related to the new card; **(ii)** request the retailer to withdraw the granted consent, in case that these transactions must be eliminated for the respective retailer.

(3) The Bank is not responsible to the Client or the retailer with regard to the effects of the legal relationship between them, being a third party with regard to the contractual relationship (including with regard to the payment method) between the Client and the retailer, as well as in case that the Client cannot purchase the goods/services offered by the retailer by means of a recurring transaction due to insufficient funds or as a result of the default of obligations specified in the previous paragraph.

5.6 Settlement currency. (1) The currency for the settlement of transactions performed with Visa and MasterCard is:

(i) LEI, for transactions with receipts issued in LEI;

(ii) EUR, for transactions with receipts issued in a currency other than LEI and

In case of on-line and offline transactions, receipt will mean the retailer's display of the value of the transaction, in the stage prior to the completion of the transaction, on its website.

In case of transactions done with debit cards attached to accounts with a different currency than LEI/EUR, regardless if it is done in the same currency as the attached account (except those attached in USD according to (iii) above mentioned), the settlement will be done using a double currency exchange, according to the mentions from paragraph (2) below that might lead to a high amount being settled from the account than the transaction one.

(2) The exchange rate existing on the date of transaction authorization may differ from the exchange rate applied on the settlement date of the transaction, therefore the amount withheld from the Client's account on the transaction authorization date may be different from the debited on the settlement date. For international transactions that are not in Euro, International Card Organizations exchange between the original transaction currency made with the card and the settlement currency, at the exchange rate established by the Card Organization on the settlement date of the transaction, to which is added the Bank's monetary conversion commission. Debiting, from the current account attached to the card, physical or virtual, of the value of the operation performed with the card, is made by foreign exchange between the value of the transaction in the settlement currency and its equivalent value in the currency of the current account, using the Bank's exchange rate. The exchange rate applied by the Bank for international card operations (or national in a currency other than the account) is available on www.unicredit.ro.

(3) In order to ensure the comparability of the total monetary conversion fees applied by the Bank, in the case of transactions in the European Union (EU) either in euro or in a national currency of a Member State other than the euro, which involves a foreign exchange, the Bank displays daily on www.unicredit.ro the total monetary conversion fees as a percentage addition to those most recent Euro reference exchange rates published by the ECB (European Central Bank). From 19 April 2021, for online and offline payments made by card in the EU denominated in any EU currency other than the account, Customers will receive each month in which the Bank receives a payment order denominated in the same currency, a single push electronic information message in the Mobile Banking application or an SMS message, regarding the exchange rate applied by the Bank when settling transactions. This message will be received by the Customer after the Bank receives the first payment order for a cash withdrawal at an ATM or a point-of-sale payment that is denominated in any EU currency other than the payer's account currency, free of charge, and for the modification of the electronic channel for receiving the notification or giving it up, it is necessary to contact the Bank by the Client by calling * 2020, the Info Center service available 24h / 7.

5.7 Supplementary card. a) A natural person ("User/supplementary cardholder") can have access to the availabilities in the Client's

account by means of a supplementary card, based on the express consent of the Client expressed in the Application or in another form agreed by the Bank. The Bank will not issue a virtual supplementary card. **b)** The provisions of the Agreement apply exactly to the user holder of an additional physical card. The Bank can cancel, block temporarily or definitively the supplementary card upon the demand of the Client in the circumstances specified in the present Agreement, without the prior notification or agreement of the User. The Client can limit the use of the supplementary card to a particular threshold (fixed amount) and for a particular period of time. The Client is not entitled to know the PIN code of the User. **c)** The Bank does not undertake any responsibility for the damages generated by the User to the Client. The Client and User are jointly responsible for the use of the supplementary card and the damages generated to the Bank or the third parties of this use. **d)** Throughout the Agreement, the expiry date of the supplementary card can be different from the expiry date of the main card. **e)** The Bank will register the transactions performed with the supplementary card on the current account of the Client without the need for any express and prior approval from the Client, **f)** If the main card is closed, additional cards of the same type as the main card will also be closed automatically.

5.8 The Client has the following rights: **(i)** by means of the card, it has permanent access to the personal account; and **(ii)** to request the Bank, immediately, without any undue delays, the initiation of the procedure for the denial of payment for a particular operation, should it find the registration on its account or card transactions which it did not order/perform, in whole or in part, as well as any other errors of other nature. The payment denial shall be performed by the filling in and deposit at one of the local units of the Bank of a typical form of application for payment denial, accompanied by supporting documents, as applicable, or by the supplementation of an electronic form by means of Online Banking or Mobile Banking, if one of this services is purchased. The Bank can request additional information in order to be able to investigate and settle the application for the denial of payment for transactions not acknowledged by the Client. Payment denials will be settled according to the rules of international card organisations and general practice for the use of the card. The process of recovering the disputed amounts, through chargeback process can take between 30 calendar days and maximum 180 calendar days. This deadline does not affect the provisions of article 2.14. If the Bank obtains documents in the chargeback process, confirming that the transaction was carried out by the cardholder in accordance with the terms and conditions of the merchant and that there is no reason to return the disputed amount, the refusal to pay is considered unjustified, in which case the Client owes the fee specified in the Annex.

Upon the closure of the debit card, physical or virtual, relationship: **(i)** all cards are cancelled, regardless of their expiry date, the Client/User being forced to return the physical ones; and **(ii)** the Client must regulate/pay any debts related to the card when they become due and provide the Bank with collateral for the payments made until the termination date (subsequently recorded in the account statement), but which will be debited subsequently, as well as for banking related commissions.

For term deposits opening, the Client will be able to send instructions to the Bank, according to the template provided by the Bank and made available in its local units, by Online Banking, Mobile Banking. The provisions of the GCU are applicable to each instruction. The Client must enter in all fields/options available on the form of instructions, including the amount of the deposit ("Original amount"), the currency of the deposit, the period of the deposit, the interest rate, its option with regard to automated extension, in the extent that such option exists, and capitalisation of interest etc.

(2) For the opening of the term deposit, the Original Amount is debited by the Bank from the current/savings account indicated in the instruction ("Original account") and credited in the deposit account opened automatically by the Bank depending on the currency of the deposit. The Bank is exonerated from the opening of the deposit in case the value of the balance existing in the Original Account is less than the Original Amount mentioned in the instruction for the opening of the deposit. The original account must be maintained throughout the duration of the deposit.

(3) Upon the opening/restoration on the due date (maturity) of a deposit, the Bank establishes minimum amounts (the "Minimum amount") depending on its currency. The minimum amount necessary for the opening of a deposit is mentioned in the instruction form, at the local offices of the Bank and on the website.

7.2 In the extent that the offer of the Bank for deposits, valid on the date of transmission by the Client of instructions for the opening of the deposit, there is an option to open deposits without automated extension and the Client, by means of the instruction sent to the Bank, requested the opening of such deposit, upon the due date (maturity) of the deposit, the initial Amount and the related interest will be credited in the Original Account.

7.3 In the extent that the offer of the Bank for deposits, valid on the date of transmission by the Client of instructions for the establishment of the deposit, there is an option to establish deposits with automated extension and the Client, by means of the instruction sent to the Bank, requested the opening of such deposit, consideration will be given to the following: **(1)** Extension is performed for a period equal to the original period, unless specified otherwise in the form of instructions. Upon due date (maturity), the original amount and the related interest will be credited in the Original Account. For the deposits with the possibility to capitalise the interest, the deposit is re-established from the Original Account, with the Original Amount and the related interest. For the deposits without the option to capitalise on interest, the deposit is restored in the original account, only with the Original amount, the related interest remaining available in the Original Account.

(2) In case the Client registers debts of any sort on the Original Account, the deposit will be extended with the balance left following the recovery of debts, in the circumstances that this balance is at least equal to the Minimum Amount in force on the date of extension. Otherwise, the deposit will not be extended, and the balance remains available in the Original Account and will be subject to the Current Account terms and conditions of the Bank, in force on the date of the respective transfer.

(3) The waiver of the option for automated extension must be notified to the Bank until the extension date, at the latest.

7.4 The **Interest Rate** can be fixed (expressed as a fixed percentage) or variable throughout the agreement and is displayed in the local Bank offices and/or on the Bank website. The level and type of the interest rate (fixed or variable) applicable to the term deposit are established in the instruction form. In case of deposits with automated extension, the Bank will provide the Client, during the period related to each extension, the deposit interest rate in force on the extension date, corresponding to the respective deposit category (the deposit category refers to the option of automated extension, capitalisation of interest, as well as the channel used for the transmission of the instruction), without any prior formalities of notification or acceptance and without the execution of an addendum. Thus, the Client understands and agrees that, on the date of extension of the deposit, the interest rate agreed originally by the instruction for the opening of the deposit can be amended, in the extent that the interest rate of the Bank on the date of extension for the respective category of deposit is different from the one originally agreed upon.

7.5 Early liquidation.

(1) In all cases of liquidation of the deposit prior to the expiry of the period for which it had been established/reestablished at due date/ maturity in the case of automatic renewal, the Current Account interest rate practiced by the Bank at the time of liquidation will be granted, which will be applied to the Original Amount that's due for the Client or, as the case may be, to their heirs. As a result of the recalculation of the interest, the Bank will withhold automatically from the deposit potential interest differences paid in excess, if applicable.

In case the maturity date of the deposit is not a Business Day, the deposit will be considered due in the immediately following Business Day. In the event that the Client's heirs request the release of the sums from the deceased Client's accounts, this will

represent a cause for early liquidation of the established deposit.

(2) Termination of the Agreement in any of the situations mentioned in art. 2.11, 3.12. paragraph. (7), art. 12.2 (v), as well as if such a decision is imposed on the Bank by the specific legislation and/or by the competent national/international control/supervision bodies/authorities, it automatically results in the termination of the term deposit established, regardless of the fulfilment of the term for which it was established.

7.6 The Bank will make available to the Client, at the office, free of charge, information with regard to the operations performed in the deposit accounts, for a period of 30 days prior to the request. The document issued by the Bank is complete proof of operations performed in the deposit account and the balance of the account. The Client must check such information.

7.7 All deposits will be established automatically with the Currency Date of the day when they have been ordered, if they are received until the limit hour. The transactions ordered after the Limit Hours or in non-business days are processed in the following Business Day.

Following the expiry of the validity term, the code becomes unusable and the frozen amount of money is returned to the client. The Bank will generate automatically a new code when the Bank credits this account next with the amounts owed to the Client, according to provisions of art.2.21 above.
